EDUCATION

California State Polytechnic University, Pomona — Pomona, CA
Master of Science in Computer Science — *Aug 2024 – May 2026*

California State Polytechnic University, Pomona — Pomona, CA
Bachelor of Science in Computer Science, GPA 3.8 — *Aug 2020 – May 2024*

EXPERIENCE

Software Engineer Intern — Sep 2024 – Present
PROJXON — *Remote*
- Collaborate with front-end developers to ensure seamless integration of user interfaces with back-end functionality
- Work with REST APIs to integrate external data and services into web platforms

PROJECTS

B-commerce | *React, Express.js, Node.js, MongoDB* — June 2024
- Developed full-stack e-commerce site that simulates users searching, buying, and saving products to their cart
- Integrated user authentication with JWT

MovieTime | *HTML, CSS, JavaScript, Express.js, Node.js, MongoDB,* — Feb - March 2024
- Created a full-stack movie review web application using MVC architecture
- Enabled users to follow others, create reviews to share, and create profiles

Civil Engr. Faculty Search Engine | *HTML, CSS, JavaScript, Flask, MongoDB* — May 2024
- Built a search engine using Python and libraries such as BeautifulSoup and scikit-learn to crawl, parse, and rank my college civil engineering professors' documents, ensuring relevant data retrieval
- Collaborated with team members to help design the UI for displaying ranked search results

Cookie Clicker Game | *React, Django, CSS* — Nov 2023 - Dec 2023
- Created a full-stack web application similar to the popular game "Cookie Clicker"
- Worked as a front-end developer and wrote the functions for the gameplay screen

Stargazers Society | *HTML, CSS, JavaScript* — Sep 2023
- Designed a website using NASA API APOD to display daily astronomy pictures and descriptions
- Added a date selection feature, enabling users to view astronomy pictures from different days

Patient Scheduling System | *Java, SQL* — Apr 2023 - May 2023
- Developed a scheduling system for patients to create accounts and schedule appointments
- Wrote SQL queries that stored patient information and their appointments to the MySQL database

VOLUNTEERING

48in48 Global Event - Zaban Paradies Center | *Remote* — October 2023
- Contributed to the development of professional-quality websites for a nonprofit organization
- Leveraged web development skills to create tailored solutions that met the organization's specific requirements
- Applied agile methodology for project management during intensive event
